Result of Master's /Doctoral Defense	The student has used plagiarism detection software to ensure academic integrity. Detection Similarity：＿＿＿＿＿% (If more than standard, please state reasons) The examination has been finished under the supervision of the committee on＿＿＿＿＿ (mm/dd/yyyy) at＿＿＿＿＿(location), and the result of Master's /doctoral defense was as following:

Passed or Failed	Average

Committee Member's Signature			

1. A seventy points is regarded as passing, with a full score being one hundred points. The grade shall be assigned only once and is an average of the grades assigned by each thesis advisory committee member. The student shall not pass the master's / doctoral examination if more than one half of the examiners assign a failing grade.
2. For Doctoral defense, there must be at least 5 members attending with at least one third of the external advisory committee members. For Master's defense, there must be at least 3 members attending with at least one third of the external advisory committee members.
3. After the degree examination is completed, the department must confirm the grades with the thesis/ dissertation advisory committee members and obtain their signatures before the grade report is filed with the Office of Academic Affairs for Admissions Section. The registration date represents the official passing completion of the degree examination and determines the academic year and semester of the student's graduation.
4. If failed and when students are still eligible to study in school, the students will be able to re-propose master's / doctoral defense in the next semester or after the second academic year. The students will be dropped out of the school if failed again.
5. The similarity index criteria for Plagiarism Detection for Thesis Originality:
   (1) The similarity index must be less than 20% in the college of design thesis/ dissertation.
   (2) The similarity index of the thesis / dissertation of the college of management、college of science and engineering 、college of humanities and social sciences and College of Aviation must be less than 30%.
   (3) The similarity index must be less than 30% in the college of informatics thesis/ dissertation. The upper limit of similarity index is 30% excluding the authors participation in thesis/ dissertation. If under the special circumstances, the oral examination committee members will explain the resolution.
